# WHO IS ATP SCIENCE?

OUR VISION IS SIMPLE;  
CREATE INNOVATIVE,  
NATURE BASED PRODUCTS  
THAT MOVE CONSUMERS  
TOWARDS BETTER HEALTH.

Because we are innovators at heart, who believe in good *Gut Health* and *Nature Knows Best*. We believe that all health comes from the Gut and our products are formulated with that in mind. We do not use ingredients known to have harmful effects on your gut health and we only use natural colours, flavours and sweeteners. We also believe that our best is still yet to come.

## INNOVATORS

Our scientists are always nose deep in research journals to keep up to date with the latest in natural health breakthroughs.

## FOCUSSED

Our customers are our number one focus. Everything we create is with their health in mind.

## LEADERS

ATP Science strives to be the leader in every category. We are known for setting the bar high while others try to follow.

## SPECIALISTS

Our 6000m2 state of the art manufacturing facility is the hub of our business. Our flavourists are specialists in their field.

## DYK: 30% OF THE PROTEIN IN YOUR BODY IS COLLAGEN

Collagen is the main component of connective tissues: Skin, muscles, ligaments, tendons, bones and joints – to name a few. NOWAY® collagen peptides are an optimal source of collagen supplementation because in addition to directly contributing to the body's collagen (building blocks), they also stimulate cells to produce more collagen. When compared to other proteins, collagen peptides essentially give you '2 for the price of 1', combining the peptide teaching the body to build muscle, and the protein itself.

# NOT ALL COLLAGENS ARE CREATED EQUAL.

At ATP Science we use the "Champion of Collagens", NOWAY® BODYBALANCE®, designed by German Scientists. It is a specific and unique combination of bioactive collagen peptides. What this means is a high-grade hydrolysed collagen peptide protein which has already been broken down into an absorbable form to help you achieve your performance goals.

When you supplement with BODYBALANCE® collagen peptides, research has found that it:

- ✔ Supports and promotes muscle mass
- ✔ Supports and promotes muscle strength
- ✔ Supports and promotes lean body mass
- ✔ Stimulates and boosts collagen production

## FREE OF THE NASTIES.

At ATP Science, we are not fans of artificial stuff. Our products are free from artificial sweeteners, colours and flavours. NOWAY® Collagen Protein is also dairy and gluten free and of course, gut friendly.

# YOUR GOALS. OUR SCIENCE.

# GUTRIGHT® MODBIOTIC® FORMULATION

GUTRIGHT® is a Modbiotic® formulation. It is a concentrated form of naturally healthy modbiotic® compounds that were once found in abundance in our traditional diet, which was loaded with skins, peels, seeds and fibre.

Our food has changed and too much sugar and too little plant polyphenols may be having a massive impact on your gut. Polyphenols are healthy parts of the peels, leaves, seeds, and sprouts of plants that impact your gut microbiome. A diverse microbiome is the epicentre of your gut health.

GUTRIGHT® is simply supporting the balance we once enjoyed when we ate a more natural diet. Just as we may supplement our diet to replace the deficient micronutrients with a multi formulation, or take extra fibre or supplement with oils; we can “spike” our diet with modbiotic® compounds with GUTRIGHT®.

- ✓ **Plant based formula**
- ✓ **Healthy digestive support**
- ✓ **Concentrated modbiotic blend**
- ✓ **High in fibre**

**RRP \$59.95 | 150g Powder**

# PLANT OMEGAS

## WITH TURMERIC AND HEMP OIL

The word essential in regards “Essential Fatty Acids” refers to the omega 3 and 6 oils we hear so much about. They are classified as “essential” because they must be consumed in the diet as we cannot make them in our own bodies ourselves. We must consume them in our diet somehow. However, the conditionally- and non-essential fatty acids are not to be disregarded, these are also required for balance and are also important parts of our diet. Plant Omegas uses patented technology to “naturally” flavour and preserve the dietary oils with a combination of pressed lemon peel oil and the essential oils of rosemary and turmeric without needing chemical preservatives, antioxidants and sweeteners or artificial flavouring.

- ✓ Provides a broad spectrum of Omegas 3, 5, 6, 7, 9, 11, GLA (Gamma-linoleic acid), CLA (conjugated Linoleic acid), and CLnA (conjugated linolenic acid).
- ✓ 100% plant based/vegan friendly oils.
- ✓ Only the best, high quality oils have been sourced from within Australia and around the world.
